GLORIFYING TO GOD

\$ 06,07/2009

Hello dear brothers and friends.

We pray to God that He continues blessing to you in everything that you make.

We are very grateful with God for their mercy and to have chosen us for this noble work and we want to share with you these good news.

Abby's work.

At the moment in the congregation exist two groups of women, one meets on Tuesdays at night and other on Thursday mornings, but in both cases they study the same class, the women requested to Abby that if she could share with them some classes, so during the month of June Abby shared with them a class about the titled book of proverbs "the woman of proverbs" .

Express Retire

The past 20 and 21 of June, the youths organized an express retire that had like main topic "That are seeing", along the night three classes were exposed, 1) you don't amuse, 2) you focus yourself, and 3) you follow me, they attended approximately as 35 youths, there were also different games, it was very tired but amusing and mainly edifying.

Thanks to God they invited me to impart the second class, that which was an entire challenge, my class went at 2 in the morning, for what the truth was an entire challenge to maintain the attention of the youths that you/they were tired, with cold and dream. Thanks to God everything came out very well and they like the class a lot

Worship and cells

Since that we arrive to Toluca, has been attending and collaborating in all the possible one, inside the worship directing prayers, the lord supper or offering, preaching, etc.

Mi family and I attend a praying group regularly the days Monday at night, in which one prays for diverse necessities and ministries.

Also attends a Small grope, where I have given some classes, and we have taught some songs that we learned in Guatemala. We meet some 7 families approximately. When finishing the class we share the foods

Cuautitlan izcalli

The last Sunday (July 5), some brothers in Cuautitlan Izcalli invited me to preach to a congregation in this place, one of the areas that visit with Linda and Calvin on February, this congregation this relatively far from the area that we visit and it has little time of having begun, (8 months).

At the moment the responsible is our brother Jesus and his wife Rosalva, we share with them our plans as team of beginning a new work the area and they were shown delighted with the idea, since there are a lot of people and few workers...

In this congregation they meet some 35 people approximately between adults and children.

New fruits

For the grace of God and his eternal love our work has begun to give fruits, God has given us the opportunity of being studying with some people, among a complete family, they are very happy with the class that we have had, they have expressed that they have helped them a lot, and that they want to continue learning.

Another of our contacts, it has already decided to obey the gospel, and after a study she has decided to do the Lord Way., without caring the hour, and the cold that was baptized toward Braulia. Now we will begin a study called "my first 40 days." We request to you to continue praying for these people..

Groups
AVALANCHE RANCH
 A WILD RIDE THROUGH GOD'S WORD

Preparations Avalanche Ranch

During the whole month of June, Abby and Me we were in a training for the biblical summer school that titles "Ranch Avalanche", a very big project, organized by our sister Carla Borja, (of forward Tx) where they participated around 70 people and to the attended an average of 250 children between the 3 and the 12 years of age. Every Sunday we stayed after the Worship to have the trainings and to practice the choreographies, songs and activities to carry out On Sunday July 12, the whole team of RA ate all together and later we work in the decoration, leaving all clever one for the beginning for the great adventure

Avalanche Ranch..

Abby made an extraordinary work, she was working with the kínder children, Abby was leader station, so it was taken charge of preparing the classes, materials and dynamics of its station that it was called biblical Adventures, every day they got ready classes and relating handiworks to the topic of the day. On Monday "God is real." Tuesday; "God is with us", Wednesday: "God is strong", Thursday; "God is amassing" and Friday; "God has the control". It was a very tired week but a big bless

The same as Abby, I was leader station, my station it was called "rodeo games" but for primary. The same topics were played during the week, in this station the children reinforced through different games the attributes of God. The children had a good time and that has been good to attract more people to the congregation

Devo avalanche Ranch

Every morning the team of avalanche ranch arrived early to have a small devotional among us to fill with energy, to pray for the children and to receive the instructions of the day. To other of that on Wednesday afternoon we join in downtown to have a small devotional and to distribute steering wheels and to make contacts for the congregation, Carla Borja invites myself to speak and encourage for each one of the members of ranch avalanche but also for the lost people, was very beautiful, all together pray we sing and we could give testimony of what God has made in our lives.

The great adventure over

All our work and effort was rewarded the last day of Ranch avalanche, there was an open class (where they attend the parents of the children to observe all that children learned) the children love it, they had a good time and they enjoyed so much that they didn't want that this great adventure finished, all the children screamed "one week more, one week more" at the end we place all the children to the center of the auditory and the whole staff of ranch avalanche we made a circle around them and taken of the hands we pray for each boy's life. At the end we listened very good comments from the parents
